

**BELDEN**  
SENDING ALL THE RIGHT SIGNALS

Signal Transmission Products and Systems

# EMEA Master Catalog

**COPPER CABLE & CONNECTIVITY**

**FIBER OPTIC CABLE & CONNECTIVITY**

**CABLE MANAGEMENT SOLUTIONS**

**POWER OVER ETHERNET PRODUCTS**

Belden is an innovative company, leading where others follow. Many new products are unique and have been singled out for recognition in the trade press and by customers. Here are a few examples which are simply typical of Belden:

**Transforming Composite Cable Installation...**

**Banana Peel®**

This new idea is an installer's dream. Banana Peel® is very easy to install. It is a fully integrated version of the composite cable construction where the various cables are fixed to a centre spline for easy pulling rather than being bundled together.

A revolutionary step is the elimination of an outer jacket. This means labour saving because individual cables are instantly identifiable and ready for termination.

Simply, Belden.

# The Future is Changing and Belden is Changing the Future

**Big Performance From a Small Cable...**

**Digitruck™**

This is a revolutionary and award-winning cable. It is a miniature coaxial, weighing about 60% less than a standard Mini RG 59/U coax; that means it requires 40% less space. With superior return loss characteristics, it is designed specifically for analog, SDI, HD video and AES/EBU digital audio transmission in broadcast production trucks where space and weight are critical.

Simply, Belden.

**Problem Solving with Enhanced Ability...**

**IBDN System 10GX**

This flagship system is revolutionary in Belden's family of structured cabling systems. The fully integrated 10 Gigabit solution is designed around a series of dynamic enabling technologies. These overcome problems which other manufacturers cannot solve – namely, the ability to reduce significantly alien crosstalk and the ability to control key electrical characteristics during high frequency operation.

Simply, Belden.

## **BELDEN... Sending All the Right Signals Around Europe, Middle East and Africa**

We focus on being the brand that is trusted...the brand that can be depended upon to give the right signals... the brand that provides the most cost effective solutions.

Belden customers enjoy working with Belden. Repeatedly, they tell us that Belden is the brand they can trust and rely on for dependable signal transmission. This is because the Belden brand has become synonymous with high quality, high performance and reliability. All that means peace of mind, all the time and in any market – broadcast, commercial networking, security, industrial, residential and many other applications.

We have earned our worldwide reputation as an expert solution provider. You are our number one priority. We care for you and we make it our job to supply you with high performance, quality products and innovative solutions on which you can rely.

Belden offers the very widest range of signal transmission products. We provide all the data and backup support necessary to help you to make the right decision to meet your requirements and to solve your problems.

The company is continually growing, evolving and developing. That means ongoing research and development to bring to market the very best in signal transmission technology – copper, optical fiber, wireless and so on. Consequently, the product range has expanded to include complete system solutions including, for example: connectivity equipment, enclosures, cable raceways and racks.

## The Future is Changing and Belden is Changing the Future

### **Your Starting Point**

This EMEA Master Catalog is your single source solution – the easy to read and comprehensive reference to thousands of cabling and signal transmission products and related products.

The Catalog is designed to be the essential tool which will provide the answer and solve the problem – whatever the application and wherever you are in Europe, the Middle East, Africa or elsewhere.

In addition, all the information in these pages, together with easy-to-access tools and helpful advice, can be found on [www.belden-emea.com](http://www.belden-emea.com)

# 1 Table of Contents

**Visit our Website**

Our website is a valuable online resource for Belden wire and cable products, services, support, solutions, and purchasing information. Point your browser to [www.belden-emea.com](http://www.belden-emea.com) to find out more.

**Contact One of Our Sales Representatives for Assistance**

Call +31-77-3878-555 or email us at [venlo.salesinfo@belden.com](mailto:venlo.salesinfo@belden.com).

**To Place an Order**

For many of the products in the catalog, you will find everything you need in this catalog to place an order. Should you need assistance, please contact your Belden sales representative. A complete list of all of our sales offices can be found on the back cover of this catalog or at [www.belden-emea.com](http://www.belden-emea.com).

**How to Use the Belden Master Catalog**

**If You're Not Sure of What You Need...**

**Select by Cable Type or Application**

Use the section index below or look at the more detailed Table of Contents pages found at the beginning of each section to find your cable type or application.

**Select by Keyword**

Reference the Table of Contents section on the following pages for an alphabetical listing of product keywords.

**Consult the Cable Finder Guide**

If you know the gage size, shielding type, and/or number of conductors needed for your application, you can locate a part number and corresponding catalog page number for all matching multi-conductor and paired cable products in the Cable Finder Guide (section 2).

**If You Know the Belden Part Number...**

**Consult the Index in the Back of the Catalog**

In the Part Number Index (section 24), you'll find a numerical listing of Belden part numbers. This comprehensive index lists every product featured in the Belden Master Catalog.
